Exercises

1. Get dashboards access. Yes No

2. Choose and complete a protocol with a team member.

Protocol name:

3. Attend an I2I website training session. Yes No

4. Attend a recorded training session. Yes No

5. Name a dashboard: What
did you see, and what questions do you have?

6. How many candidates in your EPP completed in academic
year 2023 vs. academic year 2024?

7. How many students in your 2022 admission cohort passed
their PPR? How many on the second attempt?

What programmatic changes would you want to consider
knowing those two answers?

8. Pick a certification you need to examine:

Then, see how
many candidates in your 2023 admission cohort passed their
content exam on the first attempt:

Exercises

9. Find the school systems where your EPP placed the highest & lowest number of candidates in their 2022 clinical experience:

In the school system with the most candidates, which campus in that school system had the most placements?

10. Choose a dashboard. What trends do you notice after reviewing the data?

11. Name a new practice you implemented after running through a protocol:

12. For certification year 2021, find the number of candidates employed in science who received a high school science certification:

13. Review your data monthly:				Jan	Feb	Mar	Apr
May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

14. Examine the Learning Environment Construct in your 2023 admission cohort. How do the new teacher survey results compare to the principal results?

Exercises

15. How many of the candidates prepared in certification year 2021 are currently working as professional support staff?

16. How many of your standard-certified candidates in certification year 2020 were retained for three years?

17. Name the school system where you placed the most candidates for clinical experience:

How many? How many in 2021 ended up with initial employment there? Lastly, how many of them were retained at that school system for at least two years?

18. What is the average student growth score for math for finisher year 2022? Do mathematics student growth scores increase or decrease over time?

19. Share something you learned from the I2I Dashboards with a colleague. What did you share?

20. Engage with TEA: spotlight your program, share your feedback with the Help Desk, talk with a DGC member, complete a feedback survey, highlight a practice at your EPP or something else. Which one did you choose?
