Mission

Establish a robust pathway for collecting, defining, synthesizing, and prioritizing the requests of I2I EPP dashboard users so that dashboards are strategically developed and updated to provide the most useful and usable data for program improvement.

Upcoming

Next Monthly Training Session – Thursday, Aug. 27th (3pm)

Perception Survey Data Update is running behind schedule

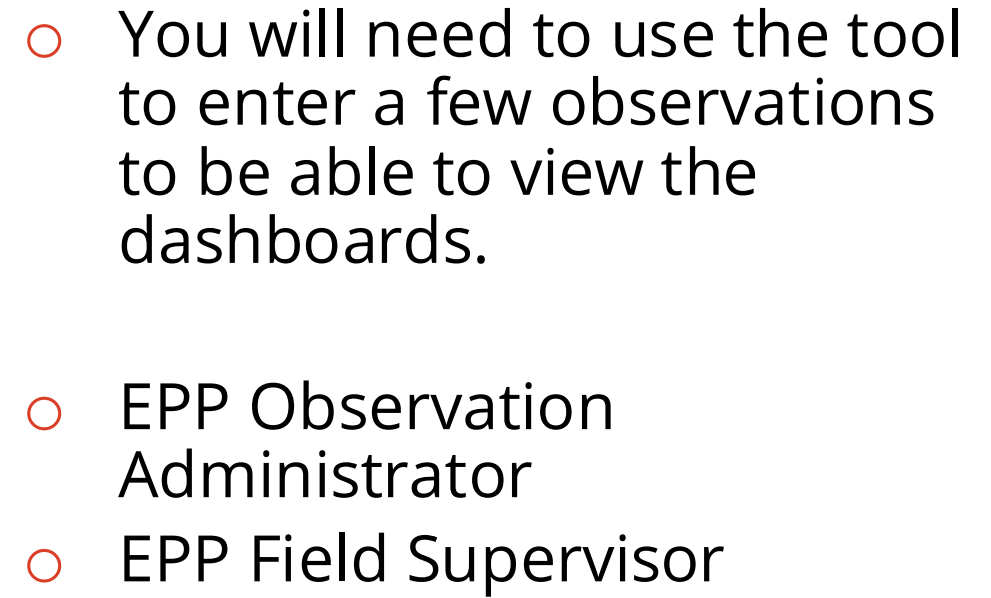

Known Issues

Bilingual Exam Data Populating Inconsistently

Committee Member Issues???

Overall Benefits of Use:

- No duplicate entry is needed
- Adaptable to multiple rubrics
 - T-TESS preloaded
 - Other rubrics added by EPPs
- More people are able to access I2I Observation Interface than ECOS, enabling field supervisors to directly enter observations
 - Addresses systemic collection mechanism not available in all EPPs
 - Encourages entry as observations are completed rather than at the end of reporting
- Visualizations promote continuous improvement around observation data during the observation phase of preparation
